

# HEAD START NEWSLETTER

NOVEMBER 2017

ROOM# 16

TEACHERS:MS. C. STALLWORTH/MS. M. WALKER

Dear Parents/and Guardian,

The season and weather is changing, it has guided children interest into many 'why' questions. Why the trees are changing colors, leaves falling, wind blows, storm drills, rainy days, so many Bees etc? During our outdoor adventures about nature, we discuss the 'why' questions. The children gather acorns, leaves, sticks and placed them throughout the classroom. They use the magnifying glasses to observe, discover and get a close-up view of the materials. They count and sort items talk about more or less identify color, shapes and sizes. The children paint picture of the trees and grass. They learn that when mixing colors together different colors are formed. The 'Fall' season offers a variation of changes in the ironment.

The children learning experiences are being challenge throughout our daily routine. Please continue to help your child(ren) with recognizing letters, writing his/or her name, numbers, colors, shapes etc. The homework packet is important in developing these skills in young children. Please remember to return the "volunteer sheets" from the homework packet. It counts towards your In-kind Contribution Hours. Enjoy your family Thanksgiving Break.
