Dear Physician,

In accordance with Federal guidelines from the Division of Family and Social Service Administration, Early Head Start Elkhart and St. Joseph Counties Community Program are required to have a feeding plan established for each infant (age six (6) weeks to twelve (12) months).

Our facility provides powder formula to each infant, unless otherwise indicated by the child's medical provider. Included is a copy of the feeding plan which requires the signature of the provider and any special instructions or written recommendations.

Thank you in advance.

Sincerely,

Yolanda Washington RN, BS, PNCC

Estimado médico,

De acuerdo con las directrices federales de la División de Familia y Administración de Servicios Sociales, Early Head Start Elkhart y St. Joseph Counties Community Program están obligados a tener un plan de alimentación establecido para cada bebé (edad seis (6) semanas a doce (12) meses).

Nuestra instalación proporciona leche en polvo a cada bebé, a menos que el proveedor médico del niño indique lo contrario. Se incluye una copia del plan de alimentación que requiere la firma del proveedor y cualquier instrucción especial o recomendaciones escritas.

Gracias de antemano.

Sinceramente,

Yolanda Washington RN, BS, PNCC
