pediatric dentistry

As a trusted provider of dental care in this community for 50 years, we are committed to lifelong learning and training to ensure we provide our patients with treatment that meets or exceeds the highest standards of national care in accordance with the guidelines and policies of the American Academy of Pediatric Dentistry.

While we hope to be the “practice of choice” for parents and children who have other options for dental care in the Michiana area, our dentists and staff are equally committed to participating in community health outreach programs and advocate for optimal oral health care for children and special needs patients regardless of socioeconomic status.

our specialists

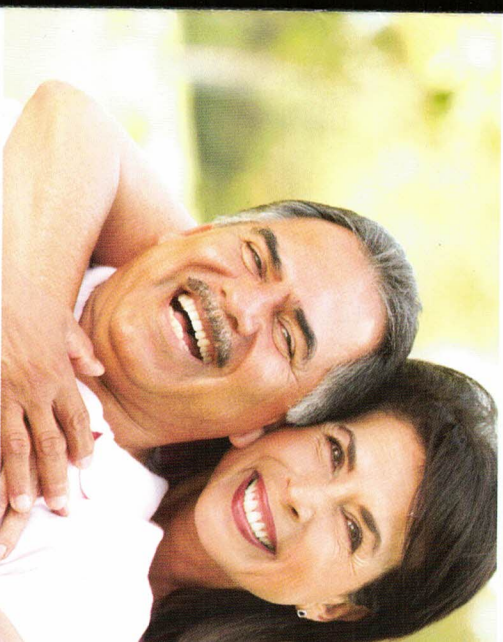

The pediatric specialists and staff at The Dental Center are committed to providing thoughtful, caring and ethical dental care for infants, children, adolescents and persons with special needs. We strive to ensure both our patients and their parents are comfortable and free from anxiety as we work towards creating a new generation of cavity-free patients who have a positive attitude towards dentistry and an understanding of the importance of oral health.

- Recognized, board-certified pediatric dental specialists
- At least two years additional education focused solely on pediatric dentistry
